Section 2: Access

D. Access Procedures

D1. Permit Holders shall enter and exit the installation only at the designated access points when open to the public. The designated access point is Gate 2 (600 Gate).

D2. Upon entering the installation, Permit Holders must proceed directly to the sign-in station at Building 600.

D3. The following sign-in procedures must be observed:

D3.1. Permit Holders shall sign in/out using the logbook located at Building 600.

D3.2. Staff has the authority to refuse entry to any individual who cannot present proper identification and Permit documentation. A Vehicle Pass alone does not grant access to U.S. Air Force property.

D3.3 Permit Holders shall review the Management Unit Board at the sign-in station. This Board identifies which Management Units and Campgrounds are open for public access, as well as any Management Units and/or Campgrounds closed by administrative action. This Board is the only official open/closure listing and should be reviewed upon every entry.

D3.4 As updates to the military range schedules can occur within 24hrs, it is the Permit Holder's responsibility to check the Management Unit status each day. This can be done at the time of sign-in, or by reviewing the information kiosks at Willingham, Morgan Hole and Austin Hammock Campgrounds. Up-to-date scheduling information is

available on the Avon Park AFR Outdoor Recreation app or at <https://avon.isportsman.net/info.aspx>.

D3.3.

D4. Permit Holders who fail to sign in or out are subject to having their recreational privileges revoked.

D5. All Permit Holders shall be signed out and off the installation by the posted gate closure time on a closing night, regardless of their activities at that time. Repeated tardiness may be subject to suspension of recreational privileges.

D6. Access for recreational activities is always subject to limitations based on the military mission and hunting season. As such, public access may or may not be permitted at any time or as authorized by the Installation Commander. The Weekend Recreation Schedule will be adjusted in response to canceled military activities within 24 hours, subject to availability of staff and/or volunteers.

D7. PRA Specific Access Procedures

D7.1. PRA Permit Holders may launch and land boats at the Kissimmee River boat ramp only after being signed in at the Outdoor Recreation Office. Mooring boats is prohibited outside of the designated boundaries of the Fort Kissimmee Campground and the Fort Kissimmee Cemetery.

E1. Each annual Permit Holder will be issued a Vehicle Pass in addition to his/her Permit. This Pass is to be permanently affixed to the outside driver's side windshield of the Permit Holder's vehicle to indicate that he/she is an Outdoor Recreation Permit Holder. The Vehicle Pass allows for easy identification of the vehicle by installation staff in the case of emergencies. Vehicle Passes are **NOT** the equivalent of a Permit for access. The Permit Holder will be held accountable for the actions of all individuals operating or riding in a vehicle bearing his/her Vehicle Pass.

E2. If the vehicle bearing a Vehicle Pass is sold or transferred to another individual, the Pass shall be removed before the vehicle leaves the Permit Holder's possession and returned (whole or in pieces) to the Outdoor Recreation Office.

E3. Permit Holders shall park their vehicles on the same side of the road as the Management Unit they are entering.

E4. Should Permit Holders hear three (3) blasts from an air horn while on the installation, they shall cease all other activities and return to their vehicles immediately. **Updated information will be posted to the Avon Park AFR Outdoor Recreation app.**
